## EDUCATION

<b>Altınbaş Üniversitesi</b> <b>Major:</b> B.S. in Software Engineering, Class of 2025 <i>Relevant Coursework:</i> Object-Oriented Programming, Linear Algebra, Calculus, Embedded System Design, Data Structures and Algorithms	2021 - Present
--	----------------

## EXPERIENCE

<b>EARTech Information Technology</b> <i>Internship-AI &amp; Cybersecurity</i>	August 2025 - Present
<ul style="list-style-type: none"><li><b>UI/UX Design:</b> Designed a mobile app from scratch using <b>Figma</b>; collaborated with a team on wireframes, prototypes, and user flow optimization.</li><li><b>Web Development:</b> Built web applications with <b>PHP</b>, <b>Laravel</b>, and modern web tools, including a <b>task manager</b> and <b>store management system</b>.</li><li><b>Cybersecurity:</b> Practiced penetration testing, port scanning, and vulnerability exploitation using <b>Kali Linux</b>, <b>Metasploit</b>, and <b>Hack The Box</b> labs.</li><li><b>Artificial Intelligence:</b> Integrated AI services on <b>Microsoft Azure</b> (AI Foundry, Chat Playground, Image Playground); implemented translation, image detection, and document/receipt processing with <b>Python</b>.</li><li><b>DevOps &amp; Collaboration:</b> Collaborated with a team of interns on a social media and marketplace project, managing version control through Git actions (branching, merging, pulling) and implementing CI/CD pipelines using GitHub Actions.</li><li><b>Deployment &amp; Integration:</b> Applied knowledge of API key management and deployed AI models into real-world projects.</li></ul>	

## COMPUTER PROGRAMMING AND ADDITIONAL INFORMATION

- Programming:** C, C++, Java, HTML/CSS, JavaScript, C#, React
- Languages:** Arabic (native), English(Proficient), French (Intermediate), Turkish (Basic)

## PROJECTS

<b>Clinic Management System</b> - (React, Node.js, Express, MongoDB)	May 2025
Built a healthcare management system with role-based portals for patients, doctors, and admins.	
<ul style="list-style-type: none"><li>Implemented real-time chat with Socket.IO and secure authentication using JWT.</li><li>Integrated Cloudinary for medical file uploads and Nodemailer for automated appointment emails.</li></ul>	
<b>Chat Application</b> - (ASP.NET Core, C#, Angular, MongoDB, SQL)	
Developed a full-stack chat platform with user authentication and secure password hashing.	
<ul style="list-style-type: none"><li>Enabled one-to-one and group messaging, including group creation and management.</li><li>Added real-time online/offline status indicators to enhance user experience.</li></ul>	
<b>Product Catalog System</b> - (PHP, Laravel, MySQL, Cloudinary)	August 2025
Designed and implemented CRUD operations for products with category management.	
<ul style="list-style-type: none"><li>Built a statistics dashboard with real-time product and category insights.</li><li>Integrated Cloudinary for cloud-based image storage with drag-and-drop uploads and automatic cleanup.</li></ul>
